

K TYPE THERMOCOUPLE THERMOMETER ST-90

Industrial K type thermocouple probe thermometer ST-90 measures temperature over the range of – 200 to 1200, depends on probe type with resolution 0.1 °C from -49.9°C to 199.9°C ; 1°C outside.

ST-90 can be used in food industry, pharmaceutical industry, transport, laboratory, for temperature control, food measurements(HACCP), incoming inspections, storage temperature control and other devices control.

Thermocouple industrial thermometer works with K type thermocouple sensor probes. The device is equipped with Mini Thermo K socket.

ST-90 features easy to read large display with min/max function, hold function and low battery indication.

Device is made of ABS material and it is resistant to dust, dirt and moisture.

Temperature range : -200 ° C to 1200 ° C
Operating temperature: 0 ° C to 40 ° C
Resolution in the range from -49.9 ° C to 199.9 ° C: 0.1 ° C, 1 ° C outside
Battery: 1 x 9V battery included
LCD 3 1/2 digits
Dimensions: 150 x 82 x 29 mm
Protection: IP65-electronics, IP67-probe
The accuracy of the thermometer with ST-01 probe in the range from -20 ° C to 199 ° C: + / - 0.5
